

TFT BUSINESS CIRCLE

Join the TFT Factory Business Circle and support the arts, strengthen your community and be part of something that truly matters.

By pledging to our TFT Business Circle you'll be joining a network of like-minded local businesses who care about making a difference and helping bring together local, independent businesses with a shared purpose: making the arts accessible to everyone in our community.

This isn't about sales targets or traditional networking. It's about smaller businesses – sole traders, family-run companies, and local independents – coming together to support something truly meaningful: opening the doors to creativity, culture, and opportunity through the arts.
